What's New In EasyAnimator Professional?

Add some fun to your presentation with "Theatrical" and "Mood" effects from CrazyTalk. Theatrical Effect Bouncing Balloon is a fun way to let your audience know how much you appreciate them. Mood Effect Pet Project is a calming way to ease any presentation, no matter what the topic. Description: Adding the ability to automatically share your activity on various sites Add some fun to your presentation with "Theatrical" and "Mood" effects from CrazyTalk. Theatrical Effect Bouncing Balloon is a fun way to let your audience know how much you appreciate them. Mood Effect Pet Project is a calming way to ease any presentation, no matter what the topic. Description: 3D Porthole Windows XP This is a simple 3D visualization of the Windows XP desktop. Description: 3D Projection Video for PowerPoint Add eye candy to your PowerPoint presentation with a 3D simulation. 3D Projection Video for PowerPoint allows you to see your slides as though they were in a real physical space. Your audience gets the same visual experience, using the same tricks they would use with a traditional projector. You can add videos, images, and audio to your 3D animations, with the ability to switch between the various 3D effects at any time. Description: 3D Simulacron An animated transition from one slide to the next. Description: 3D Textures Add some 3D textures to your slides. Easily insert 3D Textures right onto your slides. Also, easily adjust the background of each slide. This is done by pressing the background button and choosing an appropriate slide style. Description: 3D Lighting Give some lighting to your slide. You can select between dozens of shading options. Selecting one will allow you to specify the color, intensity, and direction of the lighting on the slide. Description: 3D Lighting Effects The 3D Lighting Effects feature allows you to view your slide as if it were illuminated by fluorescent lighting, and shadowed by a physical wall. You can also change the color of the lighting, and increase the intensity. Description: 3D Shading The 3D Shading feature is an easy way to add depth and perspective to your slides. You can choose to make the background of a slide transparent, or solid. You can choose between between five different shading modes. Description: Add some 3D effects The 3D text effects add a textured look to any slide. Simply type the text that you want on the slide, choose the font, and the size. Also, it's easy to add other 3D text effects like 3D circles, boxes, text boxes, and so forth. Description:
